### Reader Reviews

REVIEWED BY 2 PEOPLE

Once somebody told me - read about the subject from people in the field, practitioners of the field you are interested in. So it is not surprising that for me this book falls in the same category as Smedley Butler's "War is a racket". Book written by retired professional soldier about the dangers lying ahead of us in this modern world. Author is professional and realist. He is aware that (read more)

🔗 Show concepts discussed this chapter.

Here are important **concepts** discussed in this chapter: **TWO Urges to Violence** and why they are important

1. **Albert Speer**: Albert Speer was the armaments minister of the Third Reich, and his insights into the nature of Hitler's dictatorship highlight the unprecedented use of technology for state control and militarism. His perspective underscores the document's exploration of the relationship between technological advancement and militaristic governance.

2. **Immanuel Kant**: Immanuel Kant was an 18th-century philosopher whose work 'Perpetual Peace' warned about the dangers of militarism and the cyclical nature of war and peace. His ideas are significant in the document as they reflect historical concerns about the implications of arms races and the moral responsibilities of nations.
